

A long wooden table is elegantly set for a dinner event. The table is covered with white plates, glasses, and silverware. A centerpiece of greenery and purple flowers runs down the middle. The lighting is warm and soft, creating a romantic atmosphere. The text "the JANE CLUB Events" is overlaid in the center of the image.

# Mission.

The Jane Club's mission is to **rewrite the rules between women and work**—to create a space, community and movement that centers and values the work of women. The Jane Club surrounds women with resources to actively support their career and personal growth.

More than just a work space, our village takes care of the woman who takes care of everything else.

## THE MOTHER OF ALL WORKSPACES™

The Jane Club is a space that offers onsite childcare, a workspace and services experiences and products designed for working women and mothers.

**We are more than just a  
workspace we are a movement.**

We have been proud to align  
ourselves with partners who  
also believe in rewriting the  
rules between women and work.

A photograph of two women smiling and posing together at what appears to be a social event. The woman on the left is wearing a bright orange headwrap, a gold floral-patterned blazer over a white top, and large gold hoop earrings. The woman on the right has curly hair and is wearing a blue and white checkered button-down shirt. The background is dimly lit with some blurred lights. The entire image has a dark reddish-brown overlay, and a decorative white wavy line runs vertically down the left side.

THE ONLY PROBLEM WITH A JANE CLUB EVENT  
IS GETTING PEOPLE TO LEAVE.

# Who is Jane?

I am a Television Director, Mom to a brilliant aspiring film maker and wife to the most patient man on the planet. He puts up with my need to attend every political march possible and my obsession with my two dogs Max & Doug. Most recently we started our own jewelry line and are planning pop ups around the Los Angeles area.

I'm a business strategist and currently on a new hobby kick that—surprising to even me—includes woodworking. I'm passionate about helping women grow their businesses, taking on challenging opportunities and dance parties.

I am a writer/creator of mindful female driven dramedies who walks around with crystals in her pockets.

I am mostly a maker of things. I work for a female-founded and fully female-operated bridal start-up, and create and develop the dresses. I also make weird sculptures, excellent cakes, and average perfumes. I think I was probably a professional dancer in my past life.
